Hello Piotr!

My name is Eddie Neyman and I am a big fan of Beksinski artwork.

I discovered who you were through the Youtube channel "Andy Teszner", where many of your videos/recordings with Zdzislaw can be found. I found these old recordings extremely entertaining and silly, your simple conversations sitting down with Mr. Beksinski and not only discussing art/business, but also technology and where it was heading was fun. I was very impressed by Beksinski's ability to see the future of technology and where it was headed, to explain in great detail video formats/resolutions, recording technologies, sound and even mention handheld telephones and "super computers" that can be held in your hand one day. I found these conversations fascinating and when I saw the two of you on video together, it was like a superhero team and quite comical. I had a good laugh out of these video archives.

I have a tremendous amount of respect for what the two of you were able to accomplish together and I find it a very special thing that you found each other. It almost feels like two "oddballs" or people that on their own would go lost in life perhaps, but together you guys created greatness and contributed some amazing works to the world and fans of art/culture.

I truly appreciate your time reading this long letter and hope you are staying safe and well,

An honor to write to you and thank you for everything you have done,

Eddie Neyman
