

Dear Sir,

I am an individual, living in Paris and I have a collection of works by a Polish artist, who died in 2005, named Zdzislaw Beksinski. I created a foundation called "Foundation of Anna and Piotr Dmochowski" whose goal is to promote the art of Beksinski in Poland and in the world, and in a more distant perspective to create a museum for this collection in the surroundings of Warsaw.

Our desire would be to create this museum by constructing a building inspired by your concept 357.

Before gathering the necessary funds for this undertaking (and this may take some time) we would like to make sure of Mr. Vlassov's agreement. Even if the project is not for immediate we would already like to settle this essential question of permission and possibly acquire the authorization now. This is where we would like to know

what would the cost be? Because if we do not yet have all the funds necessary for the construction, we may have enough money to be able to conclude this transaction now.

Hence the question of price.

You can learn about the painter Beksinski and about us by opening our internet page [dmochowiskigallery.net](http://dmochowiskigallery.net)

Thanking you in advance for your response, please accept our best regards.

Piotr Dmochowski
